

STANROSE ENVIROTECH

COMPANY BROCHURE

About Us.

Introduction

Stanrose Envirotech India Private Limited is a trusted name in the field of industrial flooring, protective coatings and advanced surface coating solutions. Based in Tarapur MIDC, Boisar, Maharashtra, we specialize in epoxy and polyurethane flooring systems, polyurea coatings and PUF panel manufacturing and installation. Our expertise spans across sectors such as pharmaceuticals, food processing, aviation, warehouses, cleanrooms and heavy industries.

We are also engaged in the production of high-performance industrial cleaning chemicals for critical and general applications.

With a focus on quality, safety and long-term performance, we offer complete turnkey solutions—from product supply to on-site application. Our team is dedicated to innovation, technical excellence and customer satisfaction.

By combining advanced technology with skilled execution, Stanrose delivers solutions that meet the highest industry standards. Our mission is to provide reliable, durable and sustainable systems that protect and enhance industrial infrastructure.

Mission & Vision.

MISSION

- Deliver high-quality industrial flooring, coatings, PUF panels and cleaning solutions that meet the evolving needs of diverse industries.
- Ensure customer satisfaction through innovation, technical expertise and consistent service excellence.
- Promote safe, sustainable and long-lasting solutions that add value to industrial infrastructure.

VISION

- Be a internationally recognized leader in surface protection systems and environmental technology solutions.
- Drive continuous innovation in flooring, coatings and panel systems with a focus on performance and reliability.
- Build a future where every industrial space is safer, cleaner and more efficient through our integrated offerings.

Our Philosophy.

We believe in delivering quality without compromise, ensuring every project meets the highest standards. Integrity and transparency guide our relationships with clients, partners and employees. Innovation is at the core of our operations, driving continuous improvement in products and services. We value sustainability and are committed to eco-friendly practices in every aspect of our business. Customer satisfaction is our priority—we listen, adapt and deliver beyond expectations. We foster a culture of safety, responsibility and teamwork across all levels of our organization.

Products & Services.

EPOXY FLOORING

Epoxy flooring with coving, tile grouting and pathway/bay line marking for seamless, durable industrial surfaces.

PU FLOORING

Matt finish PU concrete and glossy PU self-leveling flooring for durable, chemical-resistant industrial applications

EPU FLOORING

Durable, glossy EPU flooring combining epoxy strength and polyurethane flexibility for industrial use.

ANTISTATIC FLOORING

Semi-gloss ESD / Antistatic flooring that prevents static buildup, ideal for sensitive industrial environments.

Products & Services.

DIELECTRIC FLOORING

Dielectric, glossy finish epoxy flooring ensuring insulation, safety and durability in high voltage electrical panel rooms.

GRANULAR FLOORING

Decorative textured finish, combining aesthetics, durability and anti-slip properties for various spaces.

3D EPOXY FLOORING

Stunning 3D epoxy flooring material combined with your custom designs, seamless finish, high durability for decorative uses.

METALLIC EPOXY FLOORING

Elegant metallic epoxy flooring with a glossy, marbled effect, offering durability, depth and a premium finish.

Products & Services.

TERRAZZO EPOXY FLOORING

Terrazzo epoxy flooring with decorative aggregates, delivering a seamless, durable and aesthetically rich surface finish.

ANTI-SKID FLOORING

Tough Epoxy / PU flooring solutions for car parks with anti-slip, weatherproof and long-lasting finish.

NUCLEAR RADIATION RESISTANT FLOORING

Specialized epoxy flooring for nuclear facilities, resistant to radiation, chemicals, abrasion and easy to maintain.

CHEMICAL RESISTANT COATING

Epoxy coatings highly resistant to alkalis, acids and corrosive chemicals for industrial and containment applications.

Products & Services.

POLYUREA WATERPROOFING

Fast-curing polyurea waterproof coatings with exceptional flexibility, elongation and long-lasting protection for critical surfaces.

PU WATERPROOFING

Polyurethane (PU) waterproofing coatings offering excellent flexibility, UV resistance and long-term protection for roofs and structures.

EPOXY WATERPROOFING

Epoxy waterproofing systems designed for moisture-prone areas, ensuring strong adhesion and long-lasting protection.

ACRYLIC CEMENTITIOUS WATERPROOFING

Elastomeric cementitious waterproofing using acrylic polymers for flexible, breathable and durable protection of concrete structures.

Products & Services.

FOOD GRADE COATING

Non-toxic, certified food-grade coatings for potable water tanks, ensuring safe, hygienic and long-lasting protection.

WALL PAINTING

Acrylic, PU and epoxy-based wall coatings offering weather resistance, durability and superior aesthetic finish.

ANTI CORROSION COATING

Zinc-rich epoxy primer, glass flake PU, MIO and red oxide coatings for superior corrosion resistance and durability.

COAL TAR EPOXY COATING

Coal tar epoxy coatings for heavy-duty protection against moisture, chemicals and corrosion in submerged conditions such as STP, ETP plants.

Products & Services.

CONCRETE DENSIFYING

Concrete polishing and densifying for smooth, glossy, dust-proof and durable industrial and commercial floors.

RESINS, HARDENERS & POLYMERS

Manufacture of epoxy/PU resins, hardeners, pigments, acrylic polymers and PUDs for industrial coatings, adhesives and waterproofing applications.

CLEANROOM MODULAR SOLUTIONS

Modular PUF partitions, GMP/HMPS doors, passboxes, AHUs, LAF/RLAF, HEPA housings, filters and accessories for controlled environments.

INDUSTRIAL CLEANING CHEMICALS

Industrial cleaners, degreasers and specialized nuclear decontamination chemicals for critical, high-performance cleaning applications.

Why Choose Stanrose?

Stanrose Envirotech stands out for delivering reliable, research-backed and industry-specific flooring and coating solutions. Our customer-focused approach, in-house expertise and uncompromising quality have earned us a solid reputation across multiple sectors.

INNOVATION

Our in-house R&D team formulates specialized epoxy and PU systems tailored for high-performance, hygienic and chemically resistant industrial environments.

QUALITY

Every product undergoes rigorous quality checks to ensure long-lasting performance, uniformity and compliance with industrial durability and safety standards.

SUPPORT

We provide end-to-end support from surface preparation to final coating with skilled teams ensuring accurate application and on-time delivery.

TRUST

We've executed projects across pharmaceuticals, aviation, cleanrooms and heavy industries—earning consistent client satisfaction and repeat business.
